The maximum amount payable under the policy of any month of an insured Al Professional’s covered disability is $7,000.
How Much Coverage Can I Apply for?

If you’re an Appraisal Institute Professional in good standing, under age 65, a resident of the United States (except VT, WA, and territories), Puerto Rico, or Canada (except Quebec), at full-time work, and not in full-time military service, you’re eligible to apply for monthly benefits of $500 to $5,000 (in units of $100) in Appraisal Institute Insurance Trust Group Long-Term Disability Income Insurance, and monthly benefits of $300 to $2,000 (in units of $100) in AI Insurance Trust Group Short-Term Disability Income Insurance. The benefit amount you apply for under these plans, in combination with all other disability insurance in force or applied for, can't exceed 60% of your basic monthly earned income for the long-term plan, or 70% of your basic monthly earned income for the short-term plan. Earned income, if you are self-employed, is net monthly earnings after business expenses, before taxes. If you have incorporated, earned income includes the cost to the operation of your fringe benefits and the share of total contributions to corporate surplus for the preceding 12 months. Income from investments, royalties, etc., or other income for which no service or work is performed, is not included in earned income. Otherwise, earned income means the basic rate of compensation from your employer excluding overtime, bonuses, and the like.

Definitions

Total Disability: During the waiting period and thereafter, you will be considered totally disabled if you are completely and continuously unable to perform the substantial and material duties of your regular occupation provided he or she is not engaged in any occupation for pay or profit.

Earned Income: The greatest of: 1) the average monthly income, including commissions, for any two consecutive years of the five years immediately prior to the year the related disability starts, or 2) the average monthly income, including commissions, for the 12 months immediately preceding the date the related disability starts. Average net monthly income does not include income from interest, dividends, rent, royalties, annuities, other insurance, other unearned income, overtime, or bonuses.

Full-Time Work: The active performance of the regular duties of your normal occupation for pay or profit on the basis of at least 30 hours per week at the place such duties are performed.

Note: Not intended for residents of New Mexico

How Do These Plans Work?

When you’re totally disabled, the long-term plan pays monthly benefits of $500 to $5,000 (in $100 units), and the short-term plan pays monthly benefits of $300 to $2,000 (in $100 units).

Long-Term Plan: If you are totally disabled before age 64, benefits are payable up to age 65. If Total Disability begins at age 64 but before age 75, monthly benefits continue for up to 12 months.

Future Purchase Option (Long-Term Plan Only): If you choose the long-term plan and are under age 50, you can apply for this feature. This affordable feature makes it possible for you to increase your long-term disability monthly benefits as your earnings grow and only pay for a fraction of the benefit cost while knowing you can activate the amount in the future. This gives you the option of increasing disability income coverage in the future without medical underwriting at that time. Amounts ranging from $500 to $2,000 per month in $100 units are available. However, the amount applied for may not exceed the amount of long-term disability income for which you are insured. Also, the combination of future purchase option plus long-term disability income cannot exceed the $5,000 monthly maximum.

All, or a portion of, the future purchase option may be converted to long-term disability income coverage in $100 units on January 1, coinciding with or following the insured’s 24, 26, 28, 30, 32, 34, 36, 38, 40, 42, 44, 46, 48, and 50th birthdays. You do not have to activate it all at one time. The option can’t be exercised if you are disabled on a conversion date, and you must have sufficient earned income to qualify for the amount of future purchase option coverage being converted.
The premium for the future purchase option is based on your age at issue and increases with age. When you convert all or a portion of the future purchase option, the premium is based on your age on the conversion date. The future purchase option premium charge is reduced when an option is exercised, and the premium is discontinued when any remaining options terminate at age 50. If you have not converted the entire amount at age 50, no portion is refunded. You must satisfy New York Life’s insurability requirements at the time you apply for this feature.

**SHORT-TERM PLAN:** If you are totally disabled before age 65, benefits are payable for up to 11 months.

**WAITING PERIODS:** With the long-term plan, you have a choice of two waiting periods before benefit payments begin—30 or 90 days. The short-term plan has a waiting period of 30 days. A waiting period is the number of consecutive days that you must be totally disabled before benefits commence. You should choose a plan that will provide benefits when your employer-provided salary continuation plan runs out. With the long-term plan, coverage with a longer waiting period is less expensive.

**WAIVER OF PREMIUM:** If you become totally disabled while insured before age 60 and remain so for six consecutive months, you will not have to pay further premiums to continue your coverage while still disabled (short-term plan maximum period for waiver of premium is 11 months).

**RESIDUAL BENEFITS:** If you return to work after a covered disability which began before age 65 and lasted for at least 30 consecutive days, you may be entitled to a residual benefit if: (a) a total disability income benefit was paid for the disability, or you have satisfied the applicable waiting period through a combination of total disability and residual disability days, (b) you did not receive your benefit for the full maximum period applicable to the disability, and (c) your current average earnings during the most recent six months after the total disability ends are no more than 75% of your pre-disability average earnings.

The residual benefit is a percentage of your total disability benefit equal to the percentage reduction of monthly earnings. For every month that the percentage reduction is 75% or more, the plan will pay the full total disability benefit.

The residual benefit will be paid for as long as the total disability benefit would have been paid if the underlying total disability had continued, or until you go for six consecutive months without qualifying for residual benefits, if earlier. Your pre-disability income is your average net monthly earnings for the 12 or 24 months prior to onset of total disability, whichever is higher.

**What Else Should I Know?**

**EFFECTIVE DATE:** You will become insured on the first of the month on or next following the date your coverage is approved by New York Life Insurance Company, provided the first premium contribution has been paid within 31 days of that date, satisfactory evidence of insurability has been submitted, and you are at full-time work. If you are not at full-time work on the approval date, you will not become insured until you are at full-time work, provided such date is within three months of the date insurance would have been effective and you are still eligible.

Payment of a premium contribution for insurance does not mean there is any coverage in force before the effective date as specified by New York Life Insurance Company.

*Note: There are instances where the company may be able to offer insurance (at the same premium) by eliminating coverage for a specific impairment or disease.*

**WHEN COVERAGE ENDS:** New York Life cannot change benefits, terminate coverage, or change premiums on an individual basis; it may do so on a class-wide basis. The benefits provided under the group-wide policy may be changed upon agreement between New York Life and Appraisal Institute Insurance Trust. New York Life has agreed not to exercise its right to terminate the group policy as long as AI Insurance Trust continues to endorse only the New York Life plan. While the group policy continues in force, you may continue your coverage until age 75 (long-term plan) or age 65 (short-term plan). However, coverage will terminate earlier if you
cease active full-time work (at least 30 hours per week) before that time, or New York Life Insurance Company terminates the group policy. You must continue to be an Appraisal Institute Professional and pay your premium on time to renew your coverage.

RENEWAL PAYMENTS AND CLAIMS: Once you are accepted into the plan, you will have a 31-day grace period for your payment of renewal premium contributions. When you want to submit a claim, call the plan administrator at 800.222.9958 for claim forms.

CERTIFICATE OF INSURANCE: This brochure is only a brief description of the principal provisions and features of the Appraisal Institute Insurance Trust Group Disability Income Insurance plan. The complete terms and conditions are set forth in the group policies issued by New York Life Insurance Company to the Trustee of the AI Insurance Trust Group Disability Income Insurance plan. When you become insured, you will be sent a Certificate of Insurance summarizing your benefits under the plan. In the event of any conflict or inconsistency between the information in this brochure and the information contained in the underlying plan documents, the plan documents will in all respects control and govern.

30-DAY FREE LOOK: When you become insured, you will be sent a Certificate of Insurance summarizing your insurance coverage. If you are not completely satisfied with the terms of your certificate, you may return it without claim within 30 days. Your coverage will be invalidated and you will receive a full refund—no questions asked!

What Is My Cost?

QUARTERLY PREMIUM CONTRIBUTIONS: The insurance cost is based on your attained age when coverage becomes effective and increases on the premium due date on or immediately after the date you reach a higher age bracket.

*For renewal purposes only

All premiums are based on the member’s age on each January 1, and increase as he or she attains a new age class. Future purchase options must be converted no later than age 50, or the right to convert is lost and payments made will not be refunded. New York Life may change premium contributions on any premium due date but not more than once in any 12-month period, and on any date on which benefits are changed. Your rate may change only if they are changed for all others in the same class of insureds under this group policy. For example, a class of insureds is a group of people with all the same issue age and gender. Benefit option amounts are subject to change by agreement between New York Life and the policyholder.

Premium contributions will vary depending on the options and amounts chosen. To find the quarterly insurance cost for benefits in excess of $100 (one unit) per month, multiply the cost shown at your age, for your choice of plan and waiting period, by the number of $100 units desired. For example: If you are age 44 and choose the long-term plan with a 30-day waiting period and a $1,000 monthly benefit (10 units), multiply $6.60 by 10 = $66.00. This is your quarterly cost.

If you wish to pay annually, the premium is four times the quarterly premium; if you prefer to pay semiannually, the premium is two times the quarterly cost. If you wish to pay monthly with the Electronic Funds Transfer (EFT) option, divide the quarterly cost by three.
